

Sprint 2 Review Presentation

Group [1]

Tutor: [Francisco]

Objectives of Current Sprint

- Explore different impact areas to find insightful directions
- Narrow the individual searches and share with the group
- Compare different ROs and choose one to pursue deeper
- Understand and improve the INFLOW-AI model for flood prediction

Sprint Summary (from sprint 2 onward)

- Our main goal was to find a RO worth pursuing, balancing feasibility, novelty and stakeholder-alignment
- We explored several areas of impact and after deepening into them we managed to define a unique RO
- Data was very limited -> we had to drop many areas and ROs that seemed logical / interesting
- Be more consistent with internal deadlines, initiative taking.

Methodological Angle (Poster/Report):

Progress and Results

- Progress 1
- Results 1
- *Add as many progress/results as you want/need*
- *Feel free to add pictures or graphs here too*

Methodological Angle (Poster/Report):

Mistakes and what you have learned

- Mistake 1
- Lesson learned 1
- *Add as many mistakes/lessons learned as you want/need*
- *Feel free to add pictures or graphs here too*

Stakeholder Angle (Meetings):

Progress and Results

- Progress 1
- Results 1
- *Add as many progress/results as you want/need*
- *Feel free to add pictures or graphs here too*

Stakeholder Angle (Meetings): Mistakes and what you have learned

- Mistake 1
- Lesson learned 1
- *Add as many mistakes/lessons learned as you want/need*
- *Feel free to add pictures or graphs here too*

Societal-Legal-Ethical Angle (Essay):

Progress and Results

- Progress 1
- Results 1
- *Add as many progress/results as you want/need*
- *Feel free to add pictures, graphs, or links here too*

Societal-Legal-Ethical Angle (Essay): Mistakes and what you have learned

- Mistake 1
- Lesson learned 1
- *Add as many mistakes/lessons learned as you want/need*
- *Feel free to add pictures, graphs or links here too*

Group Peer Feedback

As a group, use the corresponding feedback from Feedback Fruits (in Canvas) to select one positive outcome, and one action or task to improve. An improvement can also touch on any aspect of the course that you want to approach more efficiently.

Positive

Add one group positive feedback here

Improvement

Add one, or a summary of different approaches that you will implement to i.e., meetings/teacher feedback/stakeholder discussions...
